

“FUSE helped me in my other classes because it gave me the opportunity to problem solve and learn how to do things on my own.”

HIGH SCHOOL STUDENT

FUSE is a STEAM education program that builds collaborative, youth-centered learning communities. FUSE slots into the school day as a choice based STEAM Studio. In FUSE, students work on a suite of custom challenges designed around their interests in technology and design.

Schools find FUSE transformative because student growth in our studios carries over into the rest of the school day. In FUSE, students become experts in problem-solving, managing failure, and sharing expertise with their peers. FUSE is 21st century learning, and students love it.

OVER 50,000 STUDENTS PER YEAR  
OVER 250 SCHOOLS ACROSS THE USA

## Child Online Privacy Protection (COPPA) Parent Authorization Form for FUSE Users under 13 years old

Dear Parent/Guardian,

We are excited that your student will be participating in FUSE!

In order to fully engage in FUSE, we request permission for your student to create an account on the FUSE website.

The FUSE website ([fusestudio.net](http://fusestudio.net)) collects limited personal information during account creation. We collect your student's first and last name, and may collect a school-issued email address. User data can be removed from the FUSE website at any time by emailing [privacy@fusestudio.net](mailto:privacy@fusestudio.net). The FUSE website also keeps track of each user's individual progress on FUSE challenges. This data is collected and used in accordance with our Privacy Policy, which you can access at [www.fusestudio.net/privacy](http://www.fusestudio.net/privacy). The FUSE website is password protected and is only accessible to registered users.

Please fill out the following section with your permission (yes or no), your student's name, and your name and signature. To allow your student to create an account on the FUSE website, please check the 'Yes' box.

If you do not want your student to create an account, please check the 'No' box. If you select 'No' your student may still be able to participate in the FUSE program by using a guest account. The guest account does not track progress on challenges and collects no personal information.

Yes ☐ No ☐

My student has my permission to create a personal account on the FUSE website. I understand that this website will collect limited personal information about my student.
